

Internet Security

Complete protection from Civica Connect

- + **Individually tailored solutions** - matching your requirements to give you peace of mind
- + **Flexible solutions that grow with your needs**
- + **Fully managed service** - allowing your resource to be focused where it is needed
- + **Protection from all online threats**
- + **No downtime** - Ensures optimum performance levels at all times

What's
in it
for
your
business?

Civica Connect provides a range of **fully managed** Internet security services, supported and maintained **24 hours per day**.

Managing your own security devices is labour intensive, requires specialist skills, and removes staff from their core business. Opting for our specialised services offers organisations the total **peace of mind** that they seek, and ensures **optimum performance levels** at all times.

Internet Security

Complete protection from Civica Connect

Benefits

+ Effective

Our solutions work behind the scenes, constantly updating against the latest threats.

+ Saves money & resource

We manage the solution so there is no requirement for investment in a dedicated, skilled resource.

+ Ensures no downtime

Your solution will eliminate threats before they reach you and disrupt your business. This will increase your productivity and improve your service to customers.

+ Resilient service

Our 24 hour service gives you the peace of mind you need to have confidence in your business.

Your solution

Individual

We offer solutions which are individually tailored via our range of unique services & products. A security solution may not only be about hardware or software, but a combination of technology with a range of services – consultancy, implementation, support and management.

Comprehensive audit option

You may have already identified breaches in security within your system, but Civica Connect offers a full security audit where current & potential problems can be identified. Recommendations are made and we work closely with you to ensure that a solution is developed according to your specific problems, business needs and IT structure.

Independent approach

Civica Connect is able to supply the best products fit for purpose from its wide supplier base, which also ensures a totally unbiased approach when recommending product based solutions.

Call us to discuss how we can provide optimum Internet security for your business.
